

CTDOT, An Employer of Choice!

Transportation Engineer Trainee

(Information about FUTURE anticipated positions)

[Transportation Engineer Trainee](#) positions are the Department of Transportation's entry level engineering position open to candidates who possess a Bachelor's degree in engineering or construction management. Other minimum qualifications for this position require a general knowledge of basic engineering theories, principles and methods; skill in use of drafting and calculating instruments; considerable ability in performing mathematical computations, making neat and accurate drawings and preparing minor design and structural details.

Candidates who are appointed to this classification receive training in introductory professional engineering work for the development of technical and professional engineering skills and knowledge in order to qualify for advancement to the technical engineering work of the agency.

Candidates are eligible for promotion to the [Transportation Engineer 1](#) without exam after successful completion of the two (2) year training program.
